Sicherheitshinweise

Lesen Sie aufmerksam die Sicherheitshinweise und benutzen Sie den Artikel nur wie in dieser Anleitung beschrieben, damit es nicht versehentlich zu Verletzungen oder Schäden kommt. Bewahren Sie diese Anleitung zum späteren Nachlesen auf. Bei Weitergabe des Artikels ist auch diese Anleitung mitzugeben.

Der Artikel ist nur zur Dekoration und nicht als Raumbeleuchtung geeignet. Der Artikel ist für den Einsatz sowohl im Innen- als auch im Außenbereich geeignet. Der Artikel ist für den privaten Gebrauch konzipiert und für gewerbliche Zwecke nicht geeignet.

• Halten Sie Kinder von Verpackungsmaterial fern. Es besteht u.a. Erstickungsgefahr!

• Kinder erkennen nicht die Gefahren, die bei unsachgemäßen Umgang mit Elektrogeräten entstehen können. Lassen Sie Kinder deshalb niemals unbeaufsichtigt elektrische Geräte benutzen.

• Halten Sie die Erdspitze des Gartensteckers von Kindern fern.

• Der Artikel ist für den Außenbereich geeignet und entspricht der Schutzart IP44. Dies bedeutet, dass der Artikel geschützt ist gegen Berührungen mit einem Werkzeug oder einem Draht sowie gegen Fremdkörper mit einem Durchmesser größer als 1 mm und vor Spritzwasser wie z.B. Regen. Schützen Sie ihn aber vor Starkregen und Fließwasser. Keinesfalls darf der Artikel unter Wasser betrieben werden. Dies würde zum sofortigen Kurzschluss führen und es besteht die Gefahr eines Stromschlags.

• Schließen Sie den Artikel nur an eine vorschriftsmäßig installierte Steckdose, deren Netzspannung mit den technischen Daten des Netzdapters übereinstimmt. Die LEDs sind nicht dimmbar. Schließen Sie den Artikel daher nicht an eine dimmbare Steckdose an.

• Verwenden Sie kein Verlängerungskabel.

• Schließen Sie immer zuerst das Anschlusskabel an den Netzdapter an, bevor Sie den Netzdapter in die Steckdose stecken. Ziehen Sie immer

zuerst den Netzdapter aus der Steckdose, bevor Sie das Anschlusskabel vom Netzdapter trennen.

• Ziehen Sie den Netzdapter aus der Steckdose, ...
 ... wenn während des Betriebes Störungen auftreten,
 ... bei Gewitter,
 ... bevor Sie den Artikel reinigen.

Ziehen Sie dabei immer am Netzdapter, nicht am Anschlusskabel.

• Der Artikel darf nur mit dem beiliegenden Netzdapter in Betrieb genommen werden.

• Das Anschlusskabel darf nicht geknickt oder gequetscht werden. Halten Sie das Anschlusskabel fern von heißen Oberflächen und scharfen Kanten. • Der Artikel darf nicht mit anderen Lichterketten o.ä. elektrisch verbunden werden.

• Der Ein-/Aus-Schalter trennt den Netzdapter nicht von der Stromzufuhr. Die Stromzufuhr kann nur durch Ziehen des Netzdapters unterbrochen werden. Die Steckdose muss gut zugänglich sein, damit Sie im Bedarfsfall den Netzdapter schnell herausziehen können.

• Nehmen Sie den Artikel nicht in Betrieb, wenn sichtbare Schäden am Artikel, am Anschlusskabel oder am Netzdapter vorhanden sind.

• Nehmen Sie keine Veränderungen am Artikel vor. Auch das Anschlusskabel darf nicht selbst ausgetauscht werden. Bei Schäden am Anschlusskabel entsorgen Sie den Artikel entsprechend den geltenden Bestimmungen.

• Verlegen Sie das Anschlusskabel so, dass es nicht zur Stolperfallen wird. Das Kabel ist für ein Vergraben im Erdreich nicht geeignet/zugelassen.

• Platzieren Sie den Artikel nicht in Kuhlen oder Vertiefungen, an denen sich Pfützen bilden können.

• Die fest eingebauten LEDs können und dürfen nicht getauscht werden.

• Verwenden Sie zum Reinigen keine scharfen Chemikalien, aggressive oder scheuernde Reinigungsmittel.

Safety warnings

Please read the safety warnings carefully and only use the product as described in these instructions in order to avoid accidental injury or damage. Keep these instructions for future reference. If you give this product to another person, remember to also include these instructions.

The product is only suitable for decoration and not for lighting whole rooms. The product is suitable for use both indoors and outdoors.

The product has been designed for private use and is not suitable for commercial purposes.

• Keep packaging materials away from children.

They pose several risks, including the risk of suffocation!

• Children are not aware of the risks involved in handling electrical devices incorrectly. Therefore, never allow children to use electrical devices unsupervised.

• Keep the garden stake's ground spikes away from children.

• The product is suitable for outdoor use and complies with protection type IP44. This means that the product is protected against contact with tools or wires, as well as against foreign bodies with a diameter larger than 1 mm and splashes of water, such as rain. However, you should protect it from heavy rain and streams of water. Never use the product under water; this would cause an immediate short circuit and poses the risk of electric shock.

• Only connect the product to a properly installed wall socket with a mains voltage that complies with the technical specifications of the mains adapter. The LEDs cannot be dimmed. Never connect the product to dimmable wall sockets.

• Do not use an extension cable.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.

• Do not use a power cord.

• Always connect the connection cable to the mains adapter before you plug the adapter into the wall socket. Always unplug the mains adapter from the wall socket before disconnecting the connection cable from the mains adapter.
